

To our Clients & Friends...

In the midst of uncertainty, we remain passionate about our mission:

We want you to enjoy your time spent at home.

As of Monday March 16, 2020, all operations will continue as normal at Citruscapes Inc.

Our team has been preparing to provide the same level of high quality, trustworthy care for our clients' lawn and landscapes as always. We are sensitive to the current situation our world is facing, and we are determined not to play a role in inciting panic or negatively impacting the lives of our dear clients, our team members, or their families.

Please rest assured that while we move forward with services and project scheduling with the same "full steam ahead" mentality as every spring season, we will be taking public health and safety seriously in all we do.

Due to the nature of our industry, we are fortunate to have minimal (if any) physical contact with our clients or large groups of people, which is assuring to all parties. We measure the majority of our service quotes from our office using GPS. Our project appointments are continuing as normal at this time; we simply ask that you contact us to reschedule if you are feeling ill (and we promise to do the same).

Our field crews and administrative team members are all vigilantly washing hands and taking extra care to disinfect equipment, vehicle steering wheels, door handles, and more. We will continue to do our part to stop the spread of potentially dangerous germs that may not affect us personally but could have serious consequences if spread to others.

We do not know what the immediate future holds, but as history has proven time and time again, we are a strong society composed of communities full of selfless, kind, wonderful people.

We are confident that our company, our community, and our country will use this opportunity to strengthen and unify.

Sincerely,
Rob Humphrey
Citruscapes Inc.
